

# Peeranat Prasertpunt

Industrial Engineering student – Chulalongkorn university  
080-453-0444 – [arjzxc.p@gmail.com](mailto:arjzxc.p@gmail.com) – [My website](#) – [my GitHub](#) – [my LinkedIn](#)

## EDUCATION

### Chulalongkorn university

#### *Bachelor of Engineering, Industrial Engineering*

Bangkok city, TH

August 2018 - Present

- **GPAX** 2.93
- **Research coursework:** Statistical project (ANOVA), Computer and IT project (create a website with HTML/CSS and PHP), Web application with search engine (HTML/CSS/JavaScript)
- Activity Staff for 17th and 18th Larn Gear Camp
- 3rd place table tennis sport from freshman competition (2019)

## SKILLS

- **Programming:** Python – pandas – NumPy
- **Analytics:** IPython – SQL – Excel – Power BI
- **Machine learning:** TensorFlow – Keras – Graph CNN – Recurrent Neural Network
- **Language:** Thai – English – Mandarin
- **Website:** HTML/CSS/JavaScript – PHP

## PORTFOLIO

- [SIR model](#) – Mathematic model focusing on COVID-19 new-confirmed cases prediction with approximately 93 % within time-scope
- Web portfolio – Website which is built by HTML/CSS/JavaScript from scrap to gather all my portfolio in one place

## EXPERIENCE

### Haup car

#### *Data Analyst/ Internship (cooperation)*

Bangkok city, TH

June 2021 – Present

- Established and implemented a model to forecast new station demand by using machine learning e.g., TensorFlow, Keras, Long Short-Term Memory and Graph convolution neural network

## EXTRACURRICULUM ACTIVITIES

### Activities Staff

#### *SLUM club, Chulalongkorn University*

Bangkok city, TH

December 2018 – February 2021

- Slum club is volunteer club which focuses on teaching about 100 students by using growth mindset. Teaching approximately 100 students with growth mindset and can-do attitude.

### SIR model

#### *Haup Car*

Bangkok city, TH

August 2021 – August 2021

- Mathematic model focusing on COVID-19 new-confirmed cases prediction with approximately 93 % within time-scope [Click to go to project](#)
